Michigan Grown GLADIOLUS BULBS

For Outside Planting—Counter Sales or Mail Order Trade

In buying direct from the grower, you have the assurance of quality bulbs grown especially for the wholesale trade from young, vigorous stock. You are assured of high-crowned true-to-name bulbs, accurately graded, hand selected; clean and healthy—thrips free. These bulbs cannot fail to produce top grade flowers.

First size bulbs sell best over the counter. The second size is generally used for commercial cut-flower production. With irrigation, the third size will produce a very satisfactory flower.

If not familiar with the varieties listed, we recommend our Collections A, B, C or D, which we feature as an introductory offer to new customers.

In view of limited quantity available of certain varieties, we may be sold out upon receipt of your order. If so, we shall supply the nearest size or variety, equally as good or better, UNLESS YOU ADVISE OTHERWISE.

If bulbs are ordered for counter trade, colored illustrations, planting instructions and newspaper mats will be furnished upon request.

Delivery can be made any time from Dec. 1st to May 15th; and you may be assured that every effort will be made to handle your order efficiently, promptly and to your entire satisfaction.

Dust with DDT for protection against insects. To prevent thrips infestation, we recommend dusting with 5% DDT once a week, starting when the plants are 6 inches high, until the flower spikes appear. Wettable DDT sprays may be used. Follow manufacturer's recommendations.
